“ I'm a long time user (10+ years) of Planet Dog products, and a big believer in the quality & durability of your product line. I raise and train working German Shepherd Dogs for both police and Schutzhund work. A regular tennis ball will last about 10 minutes on a slow day with one of them, but I have had several Planet Dog balls and toys that stand up to multiple dog abuse day in and day out, some for over 10 years!

The durability of the large balls to withstand both weather and daily contact with abrasive surfaces like concrete is nothing short of fantastic! I've been thrilled with the ability of the Orbee balls to hold up to strong tug work when used as obedience rewards. In fact, the balls shown were used & abused daily by a 125lb (lean and fit!) German Shepherd! This was a dog that crushed 5 gallon water bottles with ease, and shredded road cones and other “durable” toys like they were made of paper.

Because my Planet Dog products are used by multiple dogs, they are also regularly sanitised in bleach, and often remain outdoors exposed to the elements year round. Quality products that withstand years of heavy duty abuse both from dogs & the elements! Great value for your hard earned money. ”

nooks.

Ever since Kizzie over enthusiastically bit through her new puzzle toy in an attempt to get every last morsel of peanut butter, it seemed entirely appropriate to try these new Planet Dog Nook toys. After hours of chewing and playing fetch, Kizzie hasn't yet left a mark on the Nook.

- Amy

snoop.

The Snoop is an extra challenge for Fudge to extract all her treats from, and certainly a unique treat toy compared to anything we have used before. I would definitely recommend these as a boredom buster for any inquisitive dogs!

- Andrew

mazee.

These toys have kept Mia, Christopher and Danny occupied and are still in one piece. Mia absolutely loved hers and it was fantastic to see her enjoying her treats so much, being the oldest of the group.

# go anywhere...

**Walking the walk.** Hemp is one of nature's most durable fibres, and we've been using it since day one. It gets softer with age like your favourite blue jeans, but stays strong after years of salt-water swims, mud puddle baths, snowy walks, and occasional rolls in the sand. It is fleece-lined to ensure optimal comfort and to minimise chafing for any dog who wears it. IT'S WHAT YOU WOULD WEAR IF YOU WERE A DOG.
